

SMOKE UP PEOPLE, THE DOOR'S OPEN

The Tribal Council voted 5-4 to not remove Old Agency Councilman. The word is out that the Tribal Chairman broke the tie vote 4-4 in favor of the group wanting to keep this Councilman on board. Why? Because he votes with the people who voted to keep him in office, Joyce, Norma, Terri, and David! They would lose their majority vote if they lost his two votes. Doesn't David have a land sale coming up to be decided by the Tribal Council as to whether or not he will get \$2700 an acre or \$1000 as the appraised value by the BIA. As Grady pointed out and as the map of this parcel of land show, it is worthless for any kind of housing or commercial development. It is broken up by a road (Hiway old 81), railroad tracks, a 2.5 acre homesite with a house on it, and a few acres of low land to the far north of the site. Redthunder pulled the wool over RPC when they made a motion to buy this land at the \$2700 per acre figure. They did not see the map of this land until after a new appraisal was done by the BIA. Everyone who gives a d-m should get a copy of this map from Tribal Realty, and talk to your Councilperson. Most likely this would not result in a no vote for David to get his way, but at least you will see how the Old Agency Councilperson votes. Will it be pay back time for David to get his way? What else do these two brothers have up their sleeves to fool the people and rob the tribal coffers?

But the real story is the employees can now "toke up" (maybe) and if the Chairman needs you for his schemes he will save you from the unemployment line. But if he doesn't need you, you will lose your job!
